

Liberty Township Fire Department Unveils New Badge Design

The Liberty Township Fire Department (LTFD) is proud to announce the creation of a new department badge. The new badge is the result of a department-wide contest that consisted of nine entries and the finalists were voted on by the members of the department.

"When I came on board I received feedback from the team that since there was a new chief we needed a new badge," stated Fire Chief Ethan Klussman. "It was a really fun experience and we received about 75% participation from the department."

The winning design was created by part-time firefighter, Brian Mariano, and will be featured on all LTFD uniforms and vehicles.
